Great Strap!

"If you leave any valuables in the bed of your truck this is a must have. Strap is made from quality materials. I would buy additional straps."

AMAZING PRODUCT!!!!!!!!!!!!!!!!!!!!!!!!!!!!

"I can't say enough about these straps! The quality is amazing; easy to set combo, flexible, yet sturdy. I don't have to park my truck next to the restaurant or store window anymore when I have my bike in the back of my truck. I also don't have to worry about the hooks slipping off the handle bars when I hit a bump with my truck. I leave my tie downs in the back of the bed now since I don't have to worry about them getting stolen, which I've had happen many times with standard straps. When I get to the track, I unload my bike and then I lock everything up with them including my gear bag, dog, and tool box. The peace of mind these straps give you is worth their weight in gold! It's about time someone came up with this kind type of product!!! Get some now before you kick yourself later!"

"I use the lockstraps on my bike at the track and in the desert so that I don't have to worry about my bike. It works great!"
